PROFILE

Frontend Developer with 3 years of experience building scalable, high-performance web applications using React.js, JavaScript, and modern frontend technologies. Proven ability to develop admin dashboards, automation systems, and responsive UI, improving efficiency and user experience. Strong expertise in Redux Toolkit, REST API integration, performance optimization, and component-based architecture

WORK EXPERIENCE

Project Engineer, Rawattech Consulting & Solutions Private Limited **Jan 2023 - Present**

- Developing and maintaining high-quality web applications from scratch, focusing on modular architecture, performance optimization, and seamless cross-platform experience.
- Migrated legacy frontend modules to a modern React.js component-based architecture, improving maintainability, scalability, and page performance.
- Integrated third-party APIs and services to enhance app functionality, reducing development time by 15%.
- Optimized data flow and state synchronization across multiple modules, reducing redundant API calls by 30% and improving overall application responsiveness by 20%.
- Collaborate with cross-functional teams to design and optimize user interfaces, increasing user satisfaction by 25%.

PROJECTS

YIKSHAR

- Developed YIKSHAR, a scalable eCommerce web application using React.js, Tailwind CSS, and Redux Toolkit, enabling product discovery, cart management, and secure order placement.
- Implemented advanced product search, filtering, and category-based navigation, improving product discoverability and reducing search time by 35%.
- Built role-based dashboards for Admin and Users, allowing product management, order tracking, inventory updates, and customer order monitoring, which improved operational efficiency by 40%.
- Optimized frontend performance through lazy loading, reusable component architecture, and efficient API handling, reducing page load time by 25–30% and improving overall user experience.

KEY SKILLS

- **Frontend:** React.js, JavaScript (ES6+), TypeScript, HTML5, CSS3, Tailwind CSS, Material UI
- **State Management:** Redux, Redux Toolkit, Zustand
- **Tools & Utilities:** Vite, Git & GitHub, Postman, VS Code
- **Other Frontend Skills:** Responsive Web Design, Web Accessibility, Context API, REST APIs

EDUCATION

Anand International College of Engineering

2019-2023

B.Tech (Computer Science Engineering)

Final Score: 85.60%
